

*Lara and Tom*

I have been struggling for words - as there are really no words or combination of words to express adequately how grateful we are to you for giving us the happiest three days of our life.

Chef Kevin a multi course dinner that was, simply put, a work of art. All your staff made us feel at home because they were truly having fun too. (see the picture of them dancing in the tent). From the moment I met you (over the phone), you put me at ease and made me feel that everything would be taken care of. As you put it over the phone "my job is to take away the 'wedding-stress' so that you can enjoy your wedding day". You did as promised - in the month and weeks preceding our wedding, you graciously and expertly guided us through the sometimes overwhelming process of planning a wedding!

It is not often that people can say they had a perfect wedding, but in that last few weeks, Tom and I concluded we had just that - a perfect wedding. The beautiful inn, the gorgeous setting, the delicious food and extraordinary hospitality of all the staff made it the best I had ever attended.

After experiencing the joy of seeing our friends and family, talk, eat s'mores, play pool and mingle together over those 3 days, we now understand our wedding weekend in a different light - the weaving together of two lives and two sets of families and friends whose integration will endure through the many happy milestones that lie ahead. In short, it was the wisest investment we could have made in our future together as husband and wife.
